

Our project is about friendship. We aim to improve our students' language skills by having contact with friends from other countries. We will have different activities. We will use web2 tools and the students will play active roles during the Project. We will play games and perform some role plays and drama activities. Also they will create toys. We will take their attention to nature and being healthy. Using internet safely is the main point of our project.

PROJECT PLAN:

DECEMBER-JANUARY
